CLOTHING & SHOES

- I have only spring/summer items for the Spring Sale and only fall/winter for the Fall Sale

- Hangers and baggies with multiple pieces of clothing contain items of the EXACT SAME SIZE
- My items are clean and without stains, holes, missing buttons/snaps or broken zippers
- All clothes are securely hung and/or pinned to the hangers, so they do not easily slip off
- Pants are pinned to the TOP of the hanger by the waistband and NOT folded over the hanger
- Multi-piece outfits are pinned together on ONE hanger
- My hangers are all in the shape of a “2” or a “?” when the front of the clothing is facing me
- Tags on the clothes are safety pinned in the upper right front of the piece as it is facing me
- Small, like items (i.e. socks) are bundled together in baggies with the tags inside
- I have no more than the 7 pairs of shoes tagged (slippers, cleats, and skates do NOT count)
- Shoes are zip-tied together with the tag attached to the top by a pin

- I have checked to make sure that none of my items are on the recall list
- Assembly instructions are included with my large items
- My car seat still has at least one year until expiration (manufacturer label must be legible)
- If I am consigning a car seat I have printed off and attached the “Car Seat Attachment” form
- Battery-operated equipment and toys have working batteries in them
- Loose items are secured in baggies and attached to toys and games
